COLUMBIA LIGHTING ENERGY SOLUTIONS

BIL
BI-LEVEL LUMINAIRE

Maximize Energy Savings with Controlled Light Levels

The Bi-Level Luminaire is the perfect solution for stairwells, as well as other low-occupancy areas such as storerooms, restrooms, and parking structures. Part of Columbia's createchange family, it maximizes energy savings by intelligently managing illumination levels to avoid wasted watts. Designed with the latest lighting technology to meet all the demanding stairwell lighting requirements, the system maximizes energy savings by offering bi-level lighting, which maintains minimum illumination levels when the spaces are unoccupied.
