COLUMBIA LIGHTING ENERGY SOLUTIONS

ENERGYMAX® INTERSECT™ FULL DISTRIBUTION LUMINAIRE

Energy savings in a crisp new look.

EnergyMax® Intersect is a two-lamp louvered luminaire designed to provide full distribution and energy savings in a crisp new look—a refreshing alternative to standard 3-lamp parabolics. The tuned ballast provides perfect balance between light output and energy use. An innovative step-dimming ballast is also available to allow switching between 100% and 50% power for even greater energy conservation.
