COLUMBIA LIGHTING ENERGY SOLUTIONS

## VERSABAY<sup>®</sup> FLUORESCENT HIGH BAY

### *Higher light levels, decreased energy usage.*

VersaBay<sup>®</sup> High Bays can provide energy savings of more than 50%, cutting your cost and improving your bottom line while enhancing the quality of lighting in the space.

Carrying an unequaled ballast warranty of 5 years at 65°C for T5HO and 55°C for T8 (277V), VersaBay addresses the issues of elevated temperature with Advanced Thermal Management that properly dissipates and controls heat. Occupancy sensor simply snaps onto standard VersaBay<sup>®</sup> fixtures. With "plug and play" wiring, installation is "tool-free."
