

Decreased energy usage, higher light levels . . .
. . . fluorescent high bays with Advanced Thermal Management

VersaBay™ High Bay

VersaBay™ High Bays can provide energy savings of more than 50%, cutting your cost and improving your bottom line – while enhancing the quality of lighting in the space. Carrying an unequalled ballast warranty of 5 years at 65°C for T5HO and 55°C for T8 (277V), VersaBay addresses the issues of elevated temperature by creating a system that properly dissipates and controls heat.
