

FEATURES

- Wet label housing troffer
- Gasketed to provide additional seal between door, lens, and housing
- Mitered corners standard on door frame
- Mechanical light trap
- All metal parts are white powder coat, painted after fabrication
- UL listed 1598 for wet location covered ceiling applications
- Rotary action cam latches. Smooth operating for secure shielding retention
- Corner hinging for easy insertion and removal of shielding frame
- Housing ends are secured by unique corner interlock and screws
- Metal to metal light leak protection on all four sides of shielding frame
- Rotary lock lampholders for positive lamp contact
- Heat sink embossments behind ballasts for cooler operation and longer life

PROJECT INFORMATION

Project Name _____

Type _____

Catalog No. _____

Date _____

FLANGED FEATURES

Four adjustable Uni-Lugs for quick easy installation. Optional plaster frames available for individual or row mounting. Fixture end flanges are removable for row mounting. Joiner channels are included.

HOUSING

Heavy gauge steel. Die formed for extra rigidity. Designed for installation in standard inverted tee grid ceilings.

BALLASTS

Energy efficient, thermally protected, automatic resetting, Class P, high power factor, sound rated A, unless otherwise specified. CEE NEMA Premium compliant.

ELECTRICAL

Standard class "P," thermally protected, autoresetting HPF ballast, sound rated A. CEE NEMA Premium compliant. All ballast leads extend a minimum of 6" through access location. NEC/CEC-compliant ballast disconnect is standard.

FINISH

All metal parts are processed with a five phase phosphate bonding treatment. Grid units are pre-painted with high glass baked white enamel, 86% reflective. Flanged units are painted after fabrication with a polyester powder coat, reflectance of 90%.

SHIELDING

100% acrylic prismatic, extruded and roll-embossed, diagonally oriented female prisms, unless otherwise specified.

FLANGED UNIT INSTALLATION

Fixtures are installed from below the ceiling and have overlapping trim flanges. Adjustable Uni-Lugs secure the fixture to the ceiling structure. Plaster frames are available if required.

CERTIFICATION

All luminaires are built to UL 1598 standards and bear appropriate UL and cUL or CSA labels. Wet location labeling is standard.
