

FEATURES

- Easy to clean, IP66 and NEMA 4X hose down rated
- NSF certified Splash Zone rating for food processing areas
- Stainless steel end caps, gasketed with extruded fungal resistant silicone
- 0.125" thick acrylic enclosure
- Wide and narrow light distributions options
- Optional quick connect, water tight cord sets allow fixture swap-out in minutes

PROJECT INFORMATION

Project Name _____

Type _____

Catalog No. _____

Date _____

BALLASTS

Energy efficient, thermally protected, automatic resetting, Class P, high power factor, sound rated A, unless otherwise specified. CEE NEMA Premium compliant.

ELECTRICAL

Standard class "P," thermally protected, auto-resetting HPF ballast, sound rated A. NEC/CEC-compliant ballast disconnect is standard. Fixture end caps are supplied ready for water-tight cord system installation. 72" of 16/3 SJO type cord is supplied out one end of luminaire, less plug standard.

HOUSING

0.125" Thick extruded acrylic enclosure with spun 304 stainless steel end caps. Enclosure sealed with one-piece silicone gasket. Threaded stud in center of end cap provides positive mechanical seal.

REFLECTORS

88% reflective, aluminum painted gloss white (wide spread distribution). Optional faceted specular aluminum, reflector 95% reflective (narrow distribution) recommended for aisle and areas requiring more vertical illumination.

FINISH

White painted parts are treated with a five stage phosphate bonding process and finished after fabrication with a minimum 90% reflective gloss baked enamel. Suspension hardware by others.

MOUNTING

Adjustable stainless steel mount strap (2 per fixture) can be used for suspension hanging, wall mounting and surface mounting.
